

Standard Schedule---Students assigned a “standard schedule” (50% of grade) learn in these courses/minutes each school day:

Success Period = Daily 30 minutes for either re-teaching or enrichment

First Period = Science = 50 minutes

Second Period = Related Arts = 50 minutes

Third Period = Math = 50 minutes

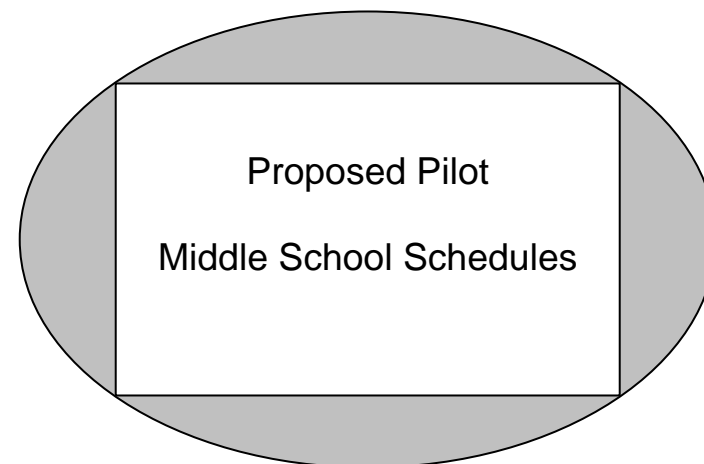

Fourth Period = Social Studies = 50 minutes

Lunch = 30 minutes

Fifth Period = Language Arts = 50 minutes

Sixth Period = Language Arts = 50 minutes

Seventh Period = Physical Education = 50 minutes

Proposed Waiver Schedule---“Student A” (language arts emphasis)

Success Period = Daily 30 minutes for either re-teaching or enrichment

Expanded Learning Module 1: Reading = 53 minutes

Grammar = 53 minutes

Literature = 52 minutes (all segments of language arts during

Expanded Learning Module 1 will be based on the Academic Standards 2000)

PE Period = 50 minutes

Lunch = 30 minutes

Expanded Learning Module 2: Math = 50 minutes (students need to sustain their math skills so this class will use our Instructional Calendar for sixth grade math)

Social Studies & Science = 110 minutes (social studies and science will explore subject area content but will do so by providing instruction in reading comprehension and other reading related skills)

Proposed Waiver Schedule---“Student B” (mathematics emphasis)

Success Period = Daily 30 minutes for either re-teaching or enrichment

Expanded Learning Module 1: Mathematics = 53 minutes

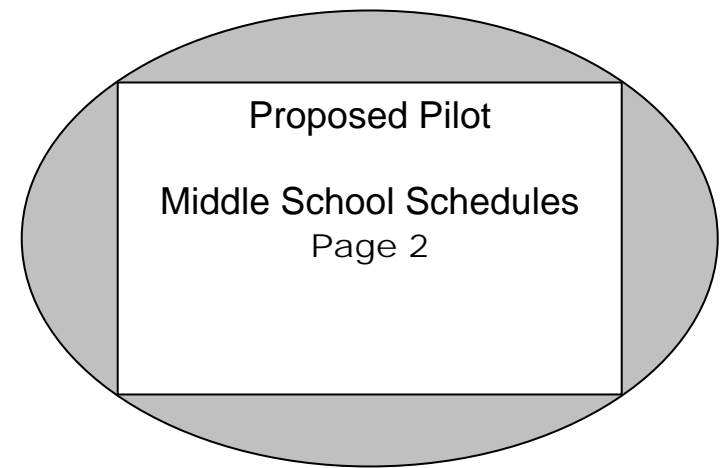

Science & Industrial Tech = 105 minutes (science and industrial tech will explore subject area content but will do so by providing instruction based on math Standards)

PE Period = 50 minutes

Lunch = 30 minutes

Expanded Learning Module 2: Language Arts = 100 minutes (students need to sustain their language arts skills so this time period will pursue our Instructional Calendar for sixth grade language arts)

Social Studies/Rotating Related Arts = 62 minutes (selected content area for students will be taught with an emphasis on mathematics Standards)

Proposed Waiver Schedule---“Student C” (language arts & math emphasis)

Success Period = Daily 30 minutes for either re-teaching or enrichment

Expanded Learning Module 1: Reading = 53 minutes

Grammar = 53 minutes

Literature = 52 minutes (all segments of language arts during

Expanded Learning Module 1 will be based on the Academic Standards 2000)

PE Period = 50 minutes

Lunch = 30 minutes

Expanded Learning Module 2: Mathematics = 53 minutes

Science & Industrial Tech = 105 minutes (science and industrial tech

will explore subject area content but will do so by providing instruction based on math Standards)

General Information: We anticipate that approximately 50% of our sixth grade students in this pilot will have a Standard Schedule while the other 50% of this grade level will have a Proposed Waiver Schedule.

Students involved in the Proposed Waiver Schedule will have a daily schedule that is tailored to meet demonstrated learning needs in language arts, or mathematics, or a combination of math and language arts. Data used to make these placements will be both standardized and formative assessment results.

While none of the students will have an Advisor/Advisee period, all of our students will go to “Success Period” where they will work with a teacher who will provide either enrichment or re-teaching. Students will be placed in different groups for Success Period each three weeks by their Team Teachers based on data from our three week assessments.
